GCAA approves Horizon Engineering Department As Continuing Airworthiness Management Organization (CAMO)

Horizon International Flight Academy has received its CAMO (Continuing Airworthiness Management Organization) approval. CAMO is now mandatory for all the UAE based commercial air operators in maintaining AOC / ATO. A substantial effort was made by the Quality Engineering Department who worked diligently to meet the mandatory requirement of the GCAA.

CAMO not only provides the airworthiness management of our own aircraft, but they also monitor the maintenance activity of the CAR145 organization through an independent Audit system, it signifies that all our aircraft are being maintained and managed to the highest recognized international standards.

GCAA
دولة الامارات العربية المتحدة
الهيئة العامة للطيران المدني
UAE General Civil Aviation Authority

Approval Number: CAMO/036/12

ATO Reference: UAE 03/2008

Pursuant to the UAE Civil Aviation Rules and Regulations currently in force and subject to the conditions annexed hereto, the General Civil Aviation Authority certifies:

Horizon International Flight Academy
P.O Box: 59059
Al Ain, United Arab Emirates

as a continuing airworthiness management organization in compliance with Section A, Subpart G of CAR M, approved to manage the continuing airworthiness of the aircraft listed in the attached schedule of approval and, when stipulated, to issue recommendations after an airworthiness review as specified in point M. 710 of CAR M.
