

EDIC Horizon Introducing Twin-Engine Helicopter

23rd Dec 2018

EDIC Horizon - International Flight Academy has launched its latest training programs in aviation training. This launch coincides with the addition of two twin-engine helicopters (Bell 429) which were unveiled during a visit from His Excellency Saif Mohammed Al Suwaidi, Director General - General Civil Aviation Authority (GCAA). His Excellency undertook a comprehensive tour of the facility and received a thorough briefing about the training courses on offer.

The development and expansion of the training programs underpin EDIC Horizon's commitment to providing the best aviation training in the world. As Hareb Thani Al Dhahiri, CEO of the Academy stated; "The expansion of the Academy's training fleet is in line with the Academy's endeavor to provide the latest training solutions to our customers, locally and regionally"
