

14th November 2011: Horizon Participates in the Gulf Aviation Training Event (GATE 2011)

The inaugural Gulf Aviation Training Event took place on 14 & 15 November 2011 during the Dubai Airshow. The conference focused on future flight training requirements for the Middle East region.

Jeremy Nordan, Horizon's Head of Training (FW) was among the panel of experts brought together to discuss "Oversight of Outsourced Training by Airlines and Regulators".

The Conference had lined up top air transport flight training professionals to discuss the pressing need for more comprehensive flight crew training in a region which is seeing accelerated growth in air transport.
